Professor Declares Kennedy's Record Proves Him Great

WILLIAMSTOWN, Mass. (AP) — Prof. James MacGregor Burns, of Williams College, biographer of President Kennedy, said Friday the late chief executive's record "will establish him as one of the great Presidents.

"In less than three years as President," Burns said, "John F. Kennedy displayed an extraordinary leadership, a brilliance and judgment in foreign policy and qualities of personal kindness and humanity that will establish him as one of the great presidents.

"He was given less than three years. He made the most of the time he had."

Burns urged the nation "to follow in the direction in which he was leading us."
